# Handicrafts

Any decorative or useful item made by using hand is known as Handicraft. In simple words, Handicraft is any of a wide variety of types of work where useful and decorative objects are made completely by one's hand or by using only simple, non-automated related tools like hammers, scissor etc. India is considered as the land of tradition and culture. Indian crafts are extremely old, and therefore the incontrovertible fact that they're still preserved today is a solid proof of their quality and significance. The creation of an authentic handcrafted product involves considerable skill and time, but the individual attention and care given to each item is what makes it so unique. The country is blessed with innumerable highly skilled artisans. They have increased the eminence of Indian handicrafts round the globe. Its because of them India is powerhouse & largest manufacturers of Handicrafts items.
